

GDP-0443

To: Steve Turner, LMES PORTS
Mike Wilkerson, LMES PGDP
From: Steve Holder, K-25 Facility Safety

Gentlemen,

Please review the draft memorandum responding to Mynatt's 9/9/96 letter on the subject of Highly Hazardous Chemical Inventory Assessments. K-25 Facility Safety and Environmental Management have been tasked with consolidating the response from EMEF to Mynatt. I realize that the response time for this issue has been small for PORTS and PGDP due to initial miscommunications or interpretations.

Please examine the draft for impacts on your respective sites. I understand that PGDP has intended to submit a formal response to Conner on 11/19; however, this will not allow adequate time to consolidate the information and have the document progress through the review process before the deadline. Please submit your comments as soon as possible.

Comments can be e-mailed to holderst@ornl.gov or faxed to 423-241-2640. If you have any questions, please call me at 423-574-4749.

Thank you for your assistance!

Steve Holder
